REMARKS/ARGUMENTS

The Examiner objected to Fig. 3 because the reference numeral 27 was not mentioned in the specification. Applicant has deleted 27 from Fig. 3 and moved it to Fig. 6, where the structure denoted by 27 (vertical locking mechanisms for support arms 34) was shown and referred to in paragraph [0040] but unnumbered. Applicant has also amended paragraph [0040] accordingly.

The Examiner objected to Fig. 6A as comprising two separate Figures. Applicant has labeled the packbag cover 114 as Fig. 6C, and has amended the Brief Description of the Drawings, paragraph [0022], accordingly. With respect to reference numerals 17c and 17g in Fig. 6A, 17c was mistakenly written as “17b” in paragraph [0042], and has been corrected; also, an explanation of the structure denoted by 17g in Fig. 6A has been added to paragraph [0042].

With respect to the Examiner’s objections to Fig. 6B, the missing reference 17g has been corrected as noted above; reference numeral 38 is already mentioned in the specification (see paragraph [0043]), and missing reference numeral 115a has been added to paragraph [0044].

With respect to the Examiner’s objection to Figs. 8-10 regarding reference numeral 38, applicant has already noted its mention in paragraph [0043]. Applicant has additionally added a mention to paragraph [0050].

With respect to the Examiner’s objection to Fig. 10A, applicant has corrected the reference numeral pointing to the seat from “34” to “24”. Applicant has also added missing reference numeral 25, mentioned in paragraph [0052] of the specification.

Finally, applicant has added an explanation of reference numeral 411e, shown in Figs. 11 and 11A, to the specification at paragraph [0054].

The foregoing corrections are believed to address all of the Examiner's objections, and to place the application in condition for allowance. Should the Examiner have any questions, she is invited to call applicant's undersigned attorney at 231-932-9752.

Respectfully submitted,

/Jason J. Young/
